

Just Move It

Maintaining an active lifestyle helps keep you well, both physically and emotionally. Depending on what you are doing, it might boost your social wellbeing, too!

Your challenge is to complete 50 fitness activities in 50 days.

How it Works

- Choose any exercise from the list on the next page and record that number on the day you completed it
- You can complete multiple activities per day, but you can't record the same activity twice
- You can double up on activities (ex: you walked for 30 minutes (#2) with a friend (#12)).
- You can't combine mileage or minutes (if you walk 60 minutes (#4), you can't include activities #1-3 in that event).
